

**QUALITY, OCCUPATIONAL HEALTH, SAFETY
AND ENVIRONMENTAL (QHSE) POLICY**

UB Engineering Limited, executes Projects for Electro-Mechanical and Instrumentation Installations as per the customer requirements and is committed to provide and continually improve quality of our products and services by adopting sound working practices in a manner that achieves and sustains customer satisfaction, minimum environmental impact and protection of our workforce from occupational hazards and health harms.

We shall achieve this through

- Optimum use of resources, reduction of wastages and timely delivery of services by ensuring active participation of all employees
- Adoption of safe working practices to protect employees working for and on behalf of Organisation from foreseeable work hazards and preventing health harms and pollution to the environment.
- Training of employees and contractors in respect of awareness, information and instructions to improve skills needed for our operations.
- Continual improvement of our “Quality, Occupational Health, Safety and Environmental (QHSE) management system” by periodical review of policy, objectives, targets and programs and adherence to applicable legislative and regulatory requirements.
- Communication of this policy to all of our employees. Also to make available the same for interested parties and general public.
